Persistent High/Critical Conflicts

Key Findings

- Out of 62,842 Total SoD Conflicts, 59.2% represents the High/Critical Conflicts, i.e, 37,205.
- 16,591 Persistent High/Critical Conflicts appeared across multiple annual review.
- Persistent High/Critical Conflicts concentrated in P2P and O2C, while SAP ECC has highest System Exposure.

Management Focus

- Prioritize investigation of Persistent Exposure within Process to Pay (P2P) and Order to Cash (O2C).
- Examine Persistent High/Critical exposure within SAP ECC and related Business Process/Users.
- Investigation on the overall repetitive Persistent Conflicts is required.
